

**Cristina Milesi**  
NASA Ames Research Center  
MS 232-21  
Moffett Field CA 94035  
United States

Dr. Cristina Milesi is a research scientist in the Biospheric Branch at NASA Ames Research Center. Her research focuses on the effects of changes in land use, land cover and climate on the health and function of human-dominated ecosystems.

Prior to joining NASA, she was a senior research scientist with California State University Monterey Bay. Dr. Milesi has been a NASA Earth System Science Fellow (2000-2003) and a National Research Council Fellow (2004). She has an MSc in Biology from the University of Trieste, where she graduated magna cum laude, and a PhD in ecosystem modeling and remote sensing from the University of Montana.
