

Audiences and Approaches

Scientific Community (Primary Audience)

Peer reviewed papers / Conference presentations / Special Editions

Project data and products - partner with ESIPS / PI Web Sites / Regional data CD's

LCLUC Book: case studies, methods, emerging theories, comparisons, synthesis
Regional / Thematic Scientific Networks (e.g. Miombo / SEASIA)

NASA Management

Summary achievements; keeping it up to date (*Focus for this afternoon*)

Back up material / LCLUC WEB (format, attribution) - project scientist

Abstracts - Annual Reporting - Publications list - Web Site

IWG ?? WG's - presentations - LCLUC results overview presentation

Science / Policy 'Brokers' (e.g. OSTP / WRI / etc)-

cautious translation of hard results into policy context, press release management

LCLUC areas of emphasis - carbon FCCC / national assessments

NASA LCLUC and Carbon Workshop 2000 - policy participation

rapid response mechanism e.g. NASA Fire Web Site, SAFARI, % cover Poster

Land Management Community

targeted topical workshops (funding opportunities ?)

involvement in national / regional assessments - land use stakeholders

partner with RESACS - applications program

Education / Public Outreach

Web Site - tutorials - slide show - page links

Potential Future Science Directions for LCLUC

Previous Thinking

- - Causes of LCLUC
- - Impacts of LCLUC
- - Predictive capability - modeling LCLUC and impacts
- - Integrating LCLUC in Regional Assessments
- - LCLUC and Sustainability
- - LCLUC and Biodiversity

- **Extending /Mining existing studies to address (value added proposals partnerships) CARBON / SUSTAINABILITY / POLICY PACKAGING**
 - **synthesis across existing case studies / developing and testing concepts / rules / theory /management implications of science results w. stakeholder (applications \$)**
 - **Additional Regional Case Studies - causes and impacts - priority topics/regions ?**
 - **LCLUC and Water - water use**
 - **Impacts of Cover and Land use Change on**
 - **carbon / biogeochemistry**
 - **biodiversity (logging /fragmentation etc)**
 - **Climate as a driver of Land Use Change - and socio-econ impacts**
 - **Developing a Predictive Capability of LCLUC**
 - **LCLUC in Regional Assessments - integrated modeling**
 - **New Techniques and Data sets - new systems - science**
 - **LCLUC Product Validation**
 - **Critical Thresholds land use / ecosystems**
 - **LCLUC and Social Welfare ??**
 - **Encouraging Partnerships w. ESISP /RESAC**

Next Steps and Actions

- **Pay your room bill**
- **Send your progress reports to Cinde (crd2v@virginia.edu)**
- **Contribute to program achievements summary - craft silver bullets and review overview results summary**
- **Provide WEB material - vugraph package will be a resource for all (if you cannot scan slides - send them to Cinde and email text) - 60% in hand**
- **The LCLUC BOOK - outline**
- **Small amounts of money for LCLUC meetings possibilities include:**
 - **Woody encroachment across regions**
 - **(NASA) LCLUC and Carbon - 2000**
 - **LCLUC Western states and assessments ?**
 - **Synergy of microwave /optical for LCLUC in C. Africa**
 - **LCLUC and integrated assessments Southern Africa**
 - **Developing an Urban LCLUC Network in China**
 - **Integrated Assessment and LCLUC in Southern Africa**
 - **LCLUC presentations at the LUCC Open Science Conf.(travel)**
 - **Short proposals - lead time - goals / participants/ products**
