

Mark Your Calendars

- Open Science Conference ESSP in Beijing, China November 9-12 (deadline May 1)

www.essp.org

- Next LCLUC ST meeting on Water Cycle October 10-12, 2006
- Dates for the April 2007 meeting (climate/environment/biodiversity)

April 04-06 see lcluc website

Plans

- LCLUC-Carbon workshop, timeframe Feb-Mar 2007
 - Should be global, not NACP-focused
- Next year NASA call (ROSES-2007) should solicit for Carbon

Future Directions

- Integration of LCLUC processes in climate models and assimilation schemes. Examples: urbanization, irrigation.
- Integration of carbon cycle models and water cycle models
- Enhancing the environmental impacts on society related to LCLUC, e.g. health.
- Enhancing social science component of the LCLUC

Personal Notes

- 1-pager project update !
- Help in reviewing
- Fewer surprises – keep me informed
- Communication preference: e-mail

I DO READ THEM!

"Didn't you get my e-mail?"
